AEROSPACE & SPACE SUPPORT SOLUTIONS

FABRIC STRUCTURES BUILT FOR AEROSPACE OPERATIONS

Engineered fabric structures that
support the most demanding missions
on earth and in space.

**TRUSTED INSTALLATION
SUPPORT FOR THE
AEROSPACE INDUSTRY**

PRECISION ENGINEERED

Built to meet exacting
aerospace standards
and specifications.

RAPID DEPLOYMENT

Fast-track manufacturing
and installation to support
critical timelines.

SECURE & VERSATILE

Protect valuable assets,
sensitive equipment and
mission-critical operations.

BUILT TO WITHSTAND

Engineered to perform in
extreme conditions around
the globe.

COST-EFFECTIVE

Lower installed cost with
long-term durability and
minimal maintenance.

IDEAL FOR AEROSPACE & SPACE APPLICATIONS

- ✓ **Launch Support Structures**
Mobile and permanent enclosures for launch operations.
- ✓ **Aircraft Maintenance Shelters**
Protect aircraft and equipment from the elements.
- ✓ **Payload Processing Enclosures**
Clean, secure environments for integration and testing.
- ✓ **Engine & Component Storage**
Safe storage for high-value aerospace components.
- ✓ **Satellite & Spacecraft Assembly**
Large clear-span structures for assembly and testing.
- ✓ **Ground Support Equipment (GSE) Shelters**
Protect critical equipment and extend service life.
- ✓ **Mission Readiness Facilities**
Temporary or permanent space for mission operations.
- ✓ **Rapid Deploy Solutions**
Relocatable and expandable for evolving needs.
